P250

- T** type 16 ga
- L** type 16 ga
- S** type 15 1/2 ga

5/8 - 33/32"

NEW

THE PRIMAPACT ENGINE:
THE HEART OF THE P250/Q550
offers reliability, extended performance and
an unequalled smoothness of operation.

- Short nose and compact valve design provide an all-around striking surface and enable the nailing of **more boards (4 1/2" closer)** to the end walls.
- Finely threaded screw-in cartridge assembly for precision, **easy on-site dismantling** and durability.
- High-speed action and few moving parts, for a **powerful yet soft stroke**, a shorter air-saving cycle and increased precision.
- Reduced wear effect and **quick interchangeability** of PRIMAPACT engines between same generation units.

Q550

L type 18 ga

3/8 - 5/8"

Perfectly adjustable to
the width & height of the tongue
No shim required
