

FASTENS  
WITHOUT  
COMPROMISE

**Primatech**<sup>®</sup>

## P260 HI-PERFORMANCE FLOORING STAPLER

Primatech's advanced compact firing valve optimizes job efficiency by getting the installer 4 1/2 inches closer to the end wall. This allows for installation of one or two additional boards and as such saves a significant amount of time.

- large hitting area, mallet strike can be from any angle
- only requires a light mallet impact to fully set the fastener

### Innovative Air Valve

The Primatch valve is designed to operate oil-free, although minimal lubrication will not affect its performance and will prolong seal longevity.

- exclusive compact firing valve
- extra low servicing
- high-speed discharge valve, reduces air consumption
- smooth and quiet, yet powerful
- powerful valve, that will perfectly countersink the fasteners, independently of the striking force

### Features

- 15 1/2 Ga - 1/2" crown staples
- compact design to get closer to end walls
- large composite base to increase stability and minimize damage to prefinished floors
- exclusive contact safety device activated when tool is positioned on the flooring
- ergonomic comfort grip handle
- quick loading magazine with spring loaded staple pusher

### Options

- "**TRAK-EDGE**" base, specifically designed to install factory finished products without damaging top edge
- revolving extension handle
- adapter plate for various profiles of solid flooring

Optional  
**TRAK-EDGE**

### Applications

3/4" (19 mm) standard solid hardwood flooring

1/2" to 33/32" (13 to 26 mm) requires optional adapter plate

### Specifications

Weight: 11 lbs (5 kg)

Height: 17 3/4" (451 mm)

Length: 15" (327 mm)

Capacity: 110 staples

Operating pressure: 80 - 100 psi

Lubrication: few drops weekly

Non detergent oil only

### Fasteners

15 1/2 Ga - 1/2" crown staples

1 1/2", 1 3/4", 2" (38, 45, 50 mm)
